

The King's Ken

9 NOVEMBER 2016

PUZZLE Edition

As we move into exam season, I thought our young people might need some mental gymnastics to loosen up their mind muscles! Please enjoy our King's Ken Puzzle Edition.

Answer sheets are available from Reception, but don't get them before you've strained those muscles of the mind!

CHESS

On Saturday, the 29th of October, 24 of our children took part in the SACSSA National Championships in Alberton. They played 6 rounds and all 24 came back with points behind their names. We are so proud of them!

Two of our participants managed to win all 6 games, congratulations Drake and Taonga!

The competition was very tight, as some of our participants in the higher age groups won 5 out of 6 games and did not even place in the top 3.

We brought 6 medals home with us!

Under 9 Girls - Gabriella Shordries 1st

Under 9 Boys - Drake van Diggelen 1st; Brett Marshall 2nd

Under 11 Girls - Unathi Magudulela 1st; Kaylin Pennells 3rd

Under 11 Boys - Taonga Kapeza 1st

Edition

Answer sheets are available from Reception, but don't get them before you've strained those muscles of the mind!

REBUSES

Rebuses are representations of a common phrase or word using images in a cryptic way. Try figure out the following rebuses.

To get you started, number 1 is 'No U-Turn'.

TELL THE TRUTH!

The following teachers are hiding in the passage below.
Can you find them?

The Pastor was preaching his sermon 'I can tell the truth, rather than lie'. 'It's not easy to repel serious temptations to lie regularly', he told the people. Some people thought a lie was an untruth, others thought it was a dishonest statement, but it was actually both, and they always made you feel unclean. Never cross over the fine line between melodramatic exaggeration and the rubber range of sin in telling lies.

CLUE: The teachers' names are Mrs. Pelsler, Mr. Botha, Mr. Nel, Teacher Mel, Mr. Lier, Teacher Leanne, Mr. Berrangé, Teacher Hanlie, Teacher Monica.

CROSSWORD

Find the 20 teachers/staff members below hidden in the blockword. After this, there will be 25 unused letters left over – unscramble them to make the name and surname of two of our prefects.

Time Was

When in the last 200 years was there a year which read the same upside down?

Boxed Fruit

You have three boxes, all sealed. The first is full of oranges, the second full of lemons, and the third full of a mixture of oranges and lemons. All the boxes are incorrectly labeled. You are allowed to pick a piece of fruit from one box only. How can you now tell which box is which?

Numbering

A house painter paints numbers on all the houses in a new estate from 1 to number 100. How many times does he paint the number 9 in the process?

LAST ONE!

This test does not measure your intelligence, your fluency with words and certainly not your mathematical ability. It will, however, give you some indication of your mental flexibility and creativity. In the three years since this test was developed, few people have been found who could solve more than half the questions in the first attempt. Many solved questions long after setting the test aside for a few days. In most cases however, several days were required to solve all the questions.

INSTRUCTIONS

Each question below contains the initials of words which will make the statement correct e.g. 27 L of the A = 27 Letters of the Alphabet.

1. 27 L of the A
2. 7 W of the World
3. 18 H on a G C
4. 7 D in a W
5. 24 H in a D
6. 2 W on a B
7. 11 P in a F T
8. 12 M in a Y
9. 8 T on an O
10. 29 D in F in A L Y
11. 52 W in a Y
12. 60 M in a H
13. 15 P in a R T
14. 5 T on a F
15. 12 D of J C

Well Done!
**Now you can get the answers
from reception.**

10 MORE...

1. What do you get if you cross a brook and a stream?
2. If men have two hands and monkeys have four hands, then what has just three hands?
3. What do reindeer have that no other animals have?
4. Can you spell hard water using just three letters?
5. What kind of book can a writer never finish?
6. What has eight wheels but can carry only one passenger?
7. What do people in Scotland call a little white cat?
8. What kind of tree does a cat hide under during a rainstorm?
9. Where do bats go in the winter?
10. What is made dirty by washing?

BUCK UP

A man is holding a bucket full of water. He turns the bucket upside down but the bucket remains full of water. How come? (Before you respond: the bucket has no lid, the water is not frozen, the man is not in a space capsule, and he is not swinging the bucket around so that centrifugal force keeps the water in the bucket.)

MAKE WAY

What can pass through water without getting wet?

HERE'S TO SX!!

This photo was taken right after the first SX Awards. For these awards, we wanted to honour everyone's unique personality traits which made us so close as a class. We wanted to celebrate once more as a class before some of us left ... here's to SX!

Enhancing development

We have developed, over the past 20 years, a playful activity programme created by an occupational therapist and a physiotherapist especially for mothers and babies in their first years together.

Join the fun and enhance your baby's sensory-motor experience

Our programme includes:

- Guided play and exploration with age-appropriate toys.
- Easy-to-do exercises for mom and baby
- Fun movement to music.
- "Touch" experiences to help develop baby's sense of touch.

Suitable for babies aged between 2 and 12 months
