The King's Ken

*not just
facts*

A school which teaches only the facts, has not taught anything! Now don't get me wrong, you do need facts and figures to build a foundation, but encouraging learners to think beyond themselves, consider broader implications and make connections with textbook content and its relevance to their lives, is way more crucial.

At The King's School, our educational goals cannot be limited to just competencies, skills and attributes for the intellectual mind but more importantly, we strive to teach not only to the mind, but to the hearts of our students. Spiritual Formation at our school is the gold thread that links all other learning experiences together. We strive to be an instrument God uses to develop students' hearts and minds, holistically.

Spiritual Formation is the work of the Holy Spirit. Donovan Graham suggests that this formation comes about through being in the presence of God and during this growth process, God communicates to us in a variety of ways. All of them require us to be still, be quiet, pay attention, watch and listen carefully. We as teachers need to provide these opportunities for our students. We must create environments where they can connect what they believe with how they live. There has never been a more pressing time for us as teachers to become intentional about our faith and practice of that faith in our lives. As we practice this intentionality, students will have structured opportunities to eavesdrop on the grammar, vocabulary, habits, virtues, or practices of mature Christian adults.

What a challenge to behold! Thankfully, it is not one we face alone. Parents together with the school will partner with God in this process of spiritual formation, and as a community we will build young people who serve God passionately in every walk of life.

2017 Winter Sport Tour

The Open Teams of The King's School West Rand had their first Sportwenti-Tour to Port Shepstone from 6-11 April 2017 and it was a huge success.

Selected players of the Boys' Hockey, Netball, Soccer and Girls' Hockey had the opportunity to learn from national players and coaches in their particular sporting code. Learners from each code were exposed to various skill levels from over 16 schools from all over the country and played them in their particular code.

A typical day consisted of a well-balanced breakfast followed by a training session. Lunch was served at Kapenta Bay Hotel – which had a spectacular ocean view. As many as 8 matches were played during the course of the 3 days of the clinic.

Thank you to all of the managers and coaches who ensured the well-being of each player. A special thank you to each player for being on their best behavior! Coaches and managers from other schools commented on how well behaved our learners are and that The King's School West Rand truly sets a great example to other schools.
